

Pompe autoadescanti bisenso ad anello liquido in bronzo e in acciaio inox AISI 316. A seconda del materiale utilizzato trovano applicazione nel settore nautico per svuotamento di sentine e travaso di liquidi chiari come acqua dolce, acqua di mare, gasolio, liquidi alimentari e chimici. Pompe a puleggia (NAUTIC-SPECIAL), con frizione manuale (NAUTIC F), con frizione elettromagnetica 12 o 24V (SPECIAL FM), predisposte o complete di motore idraulico (MID).

*Liquid ring pumps, selfpriming and reversible, made of bronze and stainless steel AISI 316. According to the construction materials they are widely used in the nautical sector to empty bilges and transfer clear liquids such as fresh water, sea water, diesel-oil, food and chemical products. Pumps are with pulley (NAUTIC-SPECIAL), with manual clutch (NAUTIC F), with electromagnetic clutch 12 or 24V (SPECIAL FM), flanged or with hydraulic motor (MID).*

Modello Type	Materiale Material	Collegamento Connection	Giri/min. RPM	Portata Capacity	Prevalenza Head
