

# Alfa Laval Access Tank Cover - Circular Cover Type LKDS

# Tank covers

# Introduction

The Alfa Laval Access Tank Cover - Circular Cover Type LKDS is a stainless steel manway cover that fits on openings on top of tanks or containers. It offers a quick, easy and convenient means of entry and egress to tank interiors. It provides a cover, situated above the liquid level, but no closable means of access to the interior of the vessel.

#### Application

The Access Tank Cover - Circular Cover Type LKDS is designed for use in hygienic applications across the dairy, food and beverage industries. It is especially suitable for dairy balance tanks and Cleaning-in-Place (CIP) holding tanks.

#### **Benefits**

- High-quality tank cover
- Hygienic design

# Standard design

The Alfa Laval Access Tank Cover - Circular Cover Type LKDS consists of a stainless steel lid and frame, and a splash guard to prevent liquid from spraying out during a cleaning process because the cover is not designed to fit watertight. Onsite assembly is required.

Acid pickled surface finishes (< Ra  $0.8 \ \mu$ m) meet hygienic process quality requirements. 3.1 Material Certification in accordance with EN 10204 is supplied.

# Working principle

The LKDS cover is not designed to fit watertight to the tank and therefore it is supplied with a splash guard to prevent liquid spraying out during a cleaning process.

#### Certificates

3.1 certificate.

#### **TECHNICAL DATA**
